Experience

PROBYTES SOFTWARE - 09/2015 to current

- Wrote server-side and client-side code for product based works using PHP, HTML, CSS and JavaScript, specifically with Yii2 framework.
- Performed troubleshooting of technical issues within production environment.
- Worked closely with Project Managers and other developers to define parameters and plan detailed specifications with clear project deliverables and timelines to meet strict deadlines.
- Developed back-end components to connect applications with web services.
- Conceived and built optimized landing pages in HTML and CSS for integration and cross-browser compatibility.

PROJECTS

- **Track School Bus** : Rising traffic and unsafe conditions have made accidents or mishaps common even in the case of school bus transportation. Most of this can be avoided with proper monitoring and communication by a school authority. A school bus fleet manager may not be able to access the Transport manager web application all time. The transport manager app has been designed with the aim of helping school bus fleet managers. This school bus app provides the school bus fleet manager with the ability to communicate and monitor his/her whole fleet.
- **Edsys** : Tracking project for educational institutes
- **Transport Management** : Vehicle tracking product.
- **Load Bird** : Managements of trucks and loads
- **Maboard** : Social platform

Summary

Professional Php Developer with 6 years of top-quality PHP development experience. Highly skilled at creating applications with PHP web framework such as Yii2. Expertise in developing user interfaces with HTML, CSS and JavaScript and solid understanding of MySQL and PL/pgSQL. Proven team player when working with internal cross-functional departments.
