WORK EXPERIENCE

Redbytes Software Pvt LTD | 2022 – PRESENT

Senior UX/ UI Designer

- UI strategy creation, including timetable, objectives, and targets, was discussed with clients.
- UI and UX best practises were implemented to improve already existing products.
- To increase usability and consumer satisfaction, intuitive user interfaces were designed.
- During the implementation phase, I carefully collaborated with developers to guarantee the authenticity of the designs.
- Provided feedback on graphic concepts to guarantee a unified brand experience.

Creative Concept | 2021 – 2022

Internship as Web Development & Design

- Creative design packages were developed to enhance and stand out from branding and marketing.
- To guide design choices, market trends were investigated and analysed.
- Developed creative outputs that take the client's vision and important design concepts into account.
- Maintained live websites by fixing issues, adding material, and enhancing functionality.
- When required, offered technical support over the phone or by email.
- Created designs expressly for marketing to specific clients, matching designs to clients' likes and tastes.
- Created high-performance web apps utilising JavaScript, CSS, and HTML.
