Objective:

Experienced iOS Developer with 4-5 years of expertise in native app development. Proven record of delivering high-quality applications and collaborating effectively with cross-functional teams. Seeking a challenging position to drive innovation and contribute to dynamic iOS app development in a collaborative environment.

Skills:

Programming Languages: Swift

Frameworks: UIKit, SwiftUI, Core Data

Development Tools: Xcode, Git, Xcode Instruments

Design Patterns: MVC, MVVM

Unit Testing

Work Experience:

Dunzo

10/2022 – Present   *Remote*

- Implemented extensive Unit Tests to ensure high-quality and bug-free code, enabling a more robust application.
- Effectively improved code quality by optimizing SwiftLint and utilizing Xcode Instruments for performance optimization and debugging.
- Proactively updated and managed packages to address project requirements, ensuring a seamless and efficient development workflow.
- Actively participated in code reviews, fostering a collaborative learning environment and promoting best coding practices for the entire team.

GoMechanic

07/2021 – 10/2022   *Gurugram*

- Developed and maintained an iOS app written in SwiftUI, addressing critical issues and seamlessly integrating new features to enhance user experience.
- Utilized tools like Charles, Postman to facilitate network request debugging and mock responses during development, ensuring efficient debugging and testing processes.
- Proficiently integrated third-party libraries, including Firebase Realtime Database, to enable seamless real-time data synchronization for a specific app feature.

Click Labs

07/2019 – 07/2021   *Chandigarh*

- Successfully developed and managed a complete iOS application from scratch, handling the entire app submission process to the App Store.
- Developed iOS apps using MVVM and MVC architecture, implementing REST APIs to deliver dynamic and up-to-date content.
- Effectively implemented Core Data for data storage and management, ensuring seamless offline access and data synchronization in the iOS app.

Education:

Master of Computer Application

Lovely Professional University, 2019
