## Objective

Seeing a position to utilize my skills and abilities to pursue my bright future in your reputed organization. I have Knowledge of **Software Testing** that includes **Manual , Automation and Database** Testing. which comprise of sanity, functional, non functional, regression testing.

---

## Testing Skills

### Manual Testing

- Knowledge in writing Test cases by using test **case design technique** and **Executing testcases** along with Defect Reporting by manual testing .
- Requirement gathering from client, **Team reviews, raising defect, defect monitoring,** providing feedback and worked closely with development team.
- Knowledge in **sanity testing, Functional , Non Functional , Usability , Security and Performance Testing Types.**
- Knowledge of **system testing, system integration Testing, ad-hoc testing, Exploratory, monkey and regression testing.**
- In depth knowledge of **Software Development Life Cycle (SDLC)** and **Software Testing Life Cycle (STLC) , Agile Methodologies.**
- Good understanding in **Test Execution Process, Defect Life Cycle, and Test Plan.**
- Knowledge in **Detecting bugs** & classifying them based on **severity, priority,** in **bug tracking** process using defect management tool as **JIRA.**
  
- Good Knowledge in **Web Service** testing with the help of **SOAPUI** Tool.
- Good Knowledge of Web service **UI** and **API Testing** of Rest service using **Postman** tool.
- Good Knowledge in Database. Used **My SQL** as front-end database utility tool to perform database testing.

### Automation Testing

- Knowledge of Selenium Web driver for automating test cases in various functional Modules.
- Good understanding of Build Automation tool i.e. **Maven for Data Driven Framework.**
- Good Knowledge of **OOPS concepts, Collection framework, Arrays and String Class in JAVA.**
- Knowledge in creating **POM** and **Test classes** for the framework.
- Knowledge of **Test NG** framework for the development of the Test classes.
- Executed the test scripts in parallel for **Microsoft edge, Firefox and Chrome.**

- Aware of Writing test cases and **automate** Test scripts execution and fixing the Automation issues.

---

## Skills

---

Operating System	:	<b>Windows Family and UNIX Testing</b>
process	:	<b>Manual and Automation Testing</b>
Languages	:	<b>Core java, SQL</b>
Tools	:	<b>JIRA, Eclipse, Zephyr Squad</b>
Database	:	<b>MYSQL and Oracle</b>
Integration tools	:	<b>Jenkins, GitHub</b>
API testing	:	<b>Postman Tool</b>
Automation Testing Skill	:	<b>Selenium, TestNG, Maven, POM</b>

---

## Qualification Details

---

Bachelor of Science from Dr. Babasaheb Ambedkar Marathwada University in 2019 .

**Master of Business Administration in Information Technology from Dr. Babasaheb Ambedkar Marathwada University in 2023.**

---

## Project

---

**Project Name** : **Skill share**  
**Domain** : **E Learning**

### Roles and Responsibility

- Understand the document and Involved in analysis of the requirements. Analysis of the requirements for developed the script.
- Involved in the creation of the test cases according to functional specifications.
- Prepare the test cases from use cases and also Responsible for Sanity testing.

- Executed the test case to validate customer requirement and Involved in test Report.
- Performed Functionality Testing , Retesting and Regression Testing and marking the status in the defect management tool.
- Analysis of test cases for the regression test suite used for end to end testing.
- Testing on Assembly, QM and staging environment. Have good knowledge of working in project with AGILE model.
- Knowledge about the automation testing by using Selenium Web driver.

---

## Personal Details

---

Date of Birth	30-07-1995
Nationality	Indian
Gender	Female
Languages	English , Hindi And Marathi

---

## Declaration

---

I here by declare that the above information is factual and correct to the best of my knowledge and belief.
