# Afiya Ayub Borkar

**Email:** afiyaborkar34@gmail.com  
**Portfolio:** afiyaborkar.vercel.app  
**Github**: github.com/AfiyaBorkar  

**Linkedin:** afiyaborkar  
**Mobile:** +91-950-3803-937

## EDUCATION

**Finolex Academy of Management & Technology** — Ratnagiri, India  
*Bachelor of Engineering in Information Technology; CGPI: 9.37* — *2019 - 2023*

**Abhiyankar Kulkarni Jr. College of Science** — Ratnagiri, India  
*Higher Secondary Certificate (HSC); Aggregate: 70.15%* — *2018 - 2019*

**M.S.Naik High School** — Ratnagiri, India  
*Secondary School Certificate (SSC); Aggregate: 88.40%* — *2016 - 2017*

## SKILLS SUMMARY

- **Languages**: Python, C/C++, JavaScript, SQL, Java, PHP
- **Frameworks**: React, Flask, NodeJS
- **Tools**: Git, Github, MongoDB, MySQL, SQLite
- **Platforms**: Windows, Web Development
- **Soft Skills**: Leadership, Time Management

## EXPERIENCE

**Freelancing** [Remote]  
*Software Developer* — *02/2022 - 07/2023*
- **MERN Stack Projects**: Successfully executed multiple projects using the MERN stack and Python for diverse functionalities.
- **Versatile Web Application Development**: Demonstrated expertise in **MERN stack** for versatile web application development.

**Industry 4.0 Data Science and AI** [Remote]  
*Intern* — *06/2022 - 07/2022*
- **Data analysis.**:
- **Data Science and AI Techniques.**:

**GEOGO TechSolutions Private Limited** [Remote]  
*Intern* — *11/2021 - 01/2022*
- **Web Technologies**: Hands on experience with various web technologies such as HTML, CSS, Javascript, DOM. Website development using APIs. NoSQL using MongoDB. Developed websites using React JS, Node JS.
- **App Deployment**: Deployed apps on onrender server, implementing various functionalities.

## PROJECTS

- **LinkGuard: Suspicious Link Detection**: A web-based system for detecting and classifying potentially malicious URLs using machine learning algorithms and APIs such as VirusTotal, GNews, and Malware/Phishing News API. Hosted on onrender Server for both Frontend & Backend. (**LINK**)

- **Watch2gethers [Android app]**: This App Provides users to Watch Movies together. Technologies Involved : HTML,CSS,JAVASCRIPT,NODE JS,REACT NATIVE

  (**Playstore Link**)

- **File Conversion Utility (FCU) [Android app]**: This App is used to convert file and compress image without using the internet and also Available in Play Store. Technologies Involved : HTML,CSS, REACT JS,NODE JS,EXPRESS JS,REACT NATIVE

  (**Website Link**) (**Playstore Link**)

- **Swiggy Clone**: Swiggy Clone website. Technologies Involved: React JS, Node JS,Mongodb, Expressjs Available on Netlify for both Frontend & Backend. (**LINK**)

## PUBLICATIONS

- **International Journal of Advanced Research in Science, Communication and Technology (IJARSCT)**: Paper Published: "Suspicious Link Detection using AI"(Apr '23) (**LINK**)

- **Digital Business Models**: Completed a program offered by IBM. (Mar '23) (**LINK**)

- **Palo Alto Cybersecurity Foundation**: Completed a program offered by Palto Alto. (Sep '22) (**LINK**)

- **Web Development**: Completed a course offered by Internshala. (JULY '21) (**LINK**)
